## Introduction

This list provides an update to the list of Tech Levels that was published in December 2013. It confirms final decisions for qualifications previously listed as 'pending qualifications' and applies to courses taught from September 2014. 85 qualifications including 4 Early Years Educator qualifications, have been added to the list since December 2013, and these are indicated in **bold**.

All qualifications listed below have been approved for inclusion in the 2016 school and college performance tables (to be published in early 2017). Qualifications that previously had 'pending' status, but are not included on this list will not count in the 2016 performance tables.

Tech Levels are level 3 (advanced) qualifications for students wishing to specialise in a technical occupation or occupational group. They lead to recognised occupations, for example in engineering, IT, accounting or professional cookery. They are recognised by a relevant trade or professional body or at least five employers registered with Companies House that are representative of the industry sector or occupation to which the qualification relates. Many Higher Education Institutions have also pledged support for Tech Levels.

To help students and parents decide which vocational qualifications best meet their learning needs and aspirations, this list provides links which, for each qualification, direct the reader to:

- a statement summarising the **purpose** of the Tech Level and the **occupations** it could lead to; and
- **letters of support** from employers and/or employer bodies and, in some cases, from Universities or higher education institutions.

Please note: this information was correct on 31<sup>st</sup> March 2014 but is held on external websites for which the Department for Education is not responsible. Please report any omissions to: [vg.reform@education.gsi.gov.uk](mailto:vg.reform@education.gsi.gov.uk)

Tech Levels count towards a new TechBacc (Technical Baccalaureate) performance measure. This will recognise the highest level of technical training achieved by students aged 16-19. To achieve the TechBacc, students will need to obtain:

- an approved level 3 Tech Level qualification
- an approved level 3 mathematics qualification<sup>1</sup>
- the Extended Project Qualification.

---

<sup>1</sup> [New technical baccalaureate measure](#)

From 2016, 16-19 performance tables will report academic, Tech Level and Applied General qualifications separately. This will help parents and students make meaningful judgements about schools and colleges that offer different kinds of courses.

Schools and colleges may offer qualifications that are not included in the performance tables, if approved for teaching to 16-19 year olds, and in all cases should act as they judge to be in the best interests of their students.
